# ABOUT COMPANY

We are passionate about dogs, which is why we create products that combine quality, durability and convenience. Our mission is simple: to provide pet owners with accessories that are not only beautiful, but above all, functional and safe. Our products are handmade from Biothane material, we pay attention to the smallest details and we offer a variety of designs.

Our inspiration is Bona, a Whippet with an athletic build and a noble heart. It was with her in mind that the idea of Bonero was born.

## WHY US?

### *Quality*

In the production process we only use high quality fittings and genuine Biothane.

### *Handmade*

We create the products by hand in a small workshop, giving them a unique, modern design.

### *Sustainability*

Incredibly durable and resistant to all weather conditions.

### *Made in Poland*

Our workshop is located in central Poland.
